**Proposed amended claims for Examiner Mosser's Review**

Claim 1 (currently amended): A gaming device having a game comprising:  
a game including: (i) a plurality of offers, wherein said plurality of offers  
are payable to a player; and  
    (ii) a plurality of player selectable masked selections;  
    a display device; and  
    a processor adapted to communicate with the display device, said  
processor and said display device adapted, for each play of the game, to:  
        (a) directly and individually associate said offers with said  
selections, such that each offer is individually associated with a separate one of  
the selections,  
        (b) enable the player to select one of said selections,  
        (c) reveal the offer individually associated with the selected  
selection to the player,  
        (d) enable the player to accept or reject the revealed offer, and  
        (e) repeat steps (a) to (d) at least once if said player rejects said  
revealed offer, wherein if the player rejects said revealed offer, said revealed  
offer is individually reassociated with one of said masked selections for at least  
one subsequent selection by the player; and  
        (f) if the player accepts said revealed offer, pay said revealed  
offer to the player.
